

Careers Course #4

The Next Step

Careers 4 is highly individualized depending upon what the student's goal after high school is. An example of options would not be limited to, but would include:

Enrolling in a Community College

Enrolling in a University

Pursuing an Internship Program to become, for example:

An Electrician

A Plumber

Entering the Military

Enrolling in Job Corps

Securing immediate employment

*Students must conduct an information interview with someone in an occupation that the student is considering. This must be done during one's senior year of high school.
